

INSIDEOUT

DOUBLE YOUR PLEASURE

Womanizer™ InsideOut is a dual stimulator, providing both clitoral and G-Spot stimulation. The clitoral stimulation is delivered through Womanizer's revolutionary and unique Pleasure Air™ Technology developed to gently and indirectly stimulate the clitoris. The vibrating internal G-Spot stimulator has a naturally curved shape which delivers pleasure directly to the G-Spot.

Up in the air: With our innovative Pleasure Air™ Technology, which has been developed for you and your body. It allows you to experience a climax within a very short time, without you feeling overstimulated or coming to rely on it.

In addition to the original pressure wave stimulation, the InsideOut also has a vibrator. It is shaped to flexibly adjust to your most intimate parts and thereby stimulate your G-spot. The InsideOut is gently inserted vaginally and thanks to the Pleasure Air™ Technology does not neglect your clitoris.

With 12 intensity levels for clitoral stimulation and 12 levels for the vibrator, you'll find exactly the right setting for you. If you are only after either clitoral or vaginal stimulation, both functions can be controlled independently.
