How to demo Jive

- 1 How to wear** – Holding Jive, explain how it is worn internally and that the discreet stem will not show under clothing.
- 2 Who's in control** – Explain how Jive can be controlled by the wearer or a partner, at home or out in public.
- 3 Set the scene** – Go over scenarios in which Jive can be used discreetly. For example, couples on a dinner date, used solo during work meetings, or even while doing daily household chores.
- 4 Kegels** – Inform customers that Jive can be used as a kegel exerciser.
- 5 Sync vs. Unite vs. Jive** – If someone is confused between We-Vibe Sync, We-Vibe Unite and Jive, educate customers on how Sync and Unite are designed to be worn during sex. The clitoral vibrator of Sync and Unite is bulky and may stick out if worn under clothing. Jive is designed to be more discreet, with a slender retrieval stem and quieter vibrations.
- 6 We-Connect app control** – Using the We-Connect app, demonstrate how the vibrator can be controlled from across the room or from across the world.
- 7 Quality matters** – Highlight We-Vibe quality – rumbly, powerful vibrations, body-safe, rechargeable, 2-year warranty.
