## Rabbit Vibrator

The rabbit, reimagined. A rabbit vibrator that combines the fullness of a G-spot vibrator with deep, rumby clitoral stimulation. Designed to flex and stay in contact with your clitoris as you move, this is a rabbit like no other.

### HOW IT WORKS

Nova is a dual stimulation vibrator, combining G-spot stimulation with powerful clitoral vibrations. Nova's unique design flexes to stay in contact with the clitoris for consistent stimulation as you thrust.

### CUSTOMIZED CONTROL

Nova rumbles like no other dual stimulator. Two powerful motors work together for more pleasure. Adjust Nova's G-spot and clitoral vibrations together or independently, increasing or decreasing the intensity, or turning either motor off completely.

### G-SPOT PLEASURE

Nova's curved internal stimulator is perfectly angled to find and massage the G-spot with firm or gentle pressure and vibrations.

### CONNECT FROM ANYWHERE

The free We-Connect™ app lets you play together, even when you're apart. Share control with a partner to change vibration modes and intensity in the moment, from anywhere. Choose from 10+ vibration modes or create custom vibes to bring more excitement to your play.
